QUESTION 1

Q1:

When a drive mapping for a user fails, in which of the following may the event be displayed?

1. Audit Trail
2. Usage Tracking viewer
3. An Alerting e-mail
4. Workspace Analysis details

- A. 1 and 2
- B. 2 and 3
- C. 3 and 4
- D. 1 and 4

Correct Answer: C

QUESTION 2

Q2:

When using multiple directory services concurrently, an administrator can do which of the following?

1. Configure a RES PowerFuse Directory Service for tree A and for tree B, but not (yet) for tree C
2. Configure a RES PowerFuse Directory Service for a part of a Novell tree (by setting a mount point)
3. Use several Active Directory forests in one RES PowerFuse environment
4. Combine different parts of several Active Directory forests, plus a number of Microsoft Windows Domains

- A. 1 and 3
- B. 3 and 4
- C. 2 and 4
- D. 1, 2, 3, and 4

Correct Answer: D

QUESTION 3

Q3:

An administrator changed the Zero Profile mode of an existing application. Users had existing stored settings for that application. A week later, the administrator switched the application back into its previous Zero Profile mode. Users now have their previous, week-old settings back.

Which Migration Setting has the administrator used for the switches?

- A. Ignore
- B. Remove
- C. Apply/Convert and keep
- D. Apply/Convert and remove

Correct Answer: A

QUESTION 4

Q4:

At which of the following points can Folder Synchronization be initiated?

1. Logon
2. Refresh
3. Reconnect
4. Logoff

- A. 1 and 4
- B. 2 and 3
- C. 1, 2, and 4
- D. 1, 2, 3, and 4

Correct Answer: D

QUESTION 5

Q5:

The Desktop Sampler collects information about Context and Composition. Which of the following Composition information is sampled?

1. Network Printers
2. User Registry Settings
3. Environment Variables

- A. 1 only
- B. 2 only
- C. 1 and 2
- D. 1, 2, and 3

Correct Answer: A

QUESTION 6

Q6:

The "Comments" which can be specified when assigning Application Managers to an application is displayed to the

- A. end user when the application is started
- B. end user when access to the application is requested
- C. Application Manager when users are assigned to the application
- D. Application Manager when information about the application is viewed

Correct Answer: C

QUESTION 7

Q7:

User Workspace Management consists of

- A. Context, Composition and Content
- B. Context, Content and Security
- C. Security, Diagnostics and Setup
- D. Composition, Security, and Extensions

Correct Answer: B

QUESTION 8

Q8:

What is the extension of the files saved by the Desktop Sampler?

- A. .XML
- B. .ZIP
- C. .DTS
- D. .XBB

Correct Answer: C

QUESTION 9

Q9:

Which of the following USB rules can be used when creating a Zone?

- 1. USB Vendor ID
- 2. USB Product ID
- 3. USB Serial number
- 4. USB Storage capacity

- A. 1 and 2
- B. 3 and 4
- C. 1, 2, and 3
- D. 1, 2, 3, and 4

Correct Answer: A

QUESTION 10

Q10:

By applying an Exclusive Filter in the Management Console, which objects are displayed?

- A. Only objects that do NOT match the specified Filter criteria
- B. Only objects that match the specified Filter criteria directly
- C. All objects, but objects that do not directly match the specified Filter criteria appear read-only
- D. All objects, and objects that directly match the specified Filter criteria have an icon indicating they can be modified

Correct Answer: B

QUESTION 11

Q11:

If Time Restrictions have been configured for an application, how can the end user check to determine at what times the application is available?

- A. By clicking the Time Left system tray icon
- B. By viewing the Opening Times tab for that application in PowerHelp
- C. By checking the properties of the application's shortcut in the Start Menu
- D. By viewing the Options tab in the Workspace Preferences tool

Correct Answer: B

QUESTION 12

Q12:

An administrator has configured User Settings for a specific application in a RES PowerFuse environment to track registry and files. Global User Settings is enabled. At application level, the User Setting is enabled, Preserve is checked, Apply is not checked. Sampling ratio is set at 1:1. Start tracking changes is configured to track changes immediately. What would be the end behavior for this User Settings configuration?

- A. No changes are saved or restored in the user session
- B. Changes are fully saved and fully restored in the user session
- C. Changes are fully saved but not restored in the user session
- D. New changes are not saved but previous settings are restored in the user session

Correct Answer: C

QUESTION 13

Q13:

A Scope limits a local administrator to his own OU. What is the BEST way to let the administrator define separate E- Mail Template Outlook signatures for his part of the organization (based on OU)?

- A. Create separate instances of Outlook for each OU, each referring to its own E-Mail Template.
- B. Create separate instances of Outlook for each OU, each referring to the same E-Mail Template.
- C. Create one global instance of Outlook referring to one E-Mail Template with access control set to all OUs.
- D. Create one global instance of Outlook referring to separate E-Mail Templates with access control set to the respective OUs.

Correct Answer: D

QUESTION 14

Q14:

When a user has a question about the user environment, the BEST place for an administrator to find the answer is in

- A. Diagnostics > Usage Tracking
- B. Security > Sessions
- C. Composition > User Settings
- D. Diagnostics > Workspace Analysis

Correct Answer: D

QUESTION 15

Q15:

Terminal Servers and Workstations use RES PowerFuse licenses based on

- A. the number of RES PowerFuse Agents
- B. the type of database server
- C. number of user sessions

D. the operation system

Correct Answer: C

QUESTION 16

Q16:

Which of the following conditions need to be true to deny access when a user logs on to a computer?

1. All assigned Workspace Containers contain access control.
2. The user's computer is assigned to one or more Workspace Containers.
3. All assigned Workspace Containers are based on (partial) client name.
4. The user has not been granted access to any of the Workspace Containers.

- A. 1 and 4
- B. 2 and 3
- C. 1, 2 and 4
- D. 1, 2, 3, and 4

Correct Answer: B

QUESTION 17

Q17:

From which of the following sections can Remote Assistance be started by users belonging to a specified helper group?

1. Agents Overview
2. User Sessions
3. Workspace Analysis

- A. 1 only
- B. 2 only
- C. 1 and 2
- D. 1 and 3

Correct Answer: B

QUESTION 18

Q18:

After a full installation of RES PowerFuse on a workstation, an administrator has chosen not to run the Workspace Composer automatically. How can the administrator configure to run the Workspace Composer for all users on that workstation?

1. Use Set Shell
2. Set the applicable registry key manually
3. Edit the RES PowerFuse Agent

- A. 1 only
- B. 2 only
- C. 2 and 3
- D. 1, 2, and 3

Correct Answer: A

QUESTION 19

Q19:

Which of the following tasks can be configured in an Alerting notification type?

1. External task
2. Mobile text message
3. RES Wisdom task
4. E-mail message

- A. 1 and 4
- B. 1, 2, and 4
- C. 1, 3, and 4
- D. 1, 2, 3, and 4

Correct Answer: C

QUESTION 20

Q20:

When publishing applications in Citrix XenApp using RES PowerFuse, Citrix XenApp published applications can be assigned to one or more Organizational Units.

How can the published applications be configured to keep track of all changes in membership of that OU?

- A. Configure the Citrix XenApp integration settings to rebuild its user list for OU-based applications at set times
- B. Configure the application settings to rebuild its user list for the OUs concerned
- C. Schedule the Citrix XenApp integration settings to republish the application at set times
- D. Schedule the application to be republished at set times

Correct Answer: A

QUESTION 21

Q21:

The RES PowerFuse Workspace Composer uses the

1. Local cache when the RES PowerFuse Agent is online.
2. Local cache when the RES PowerFuse Agent is offline.
3. Central datastore when the RES PowerFuse Agent has an online connection.
4. Central datastore when the RES PowerFuse Agent has an offline connection.

- A. 1 and 2
- B. 1 and 4
- C. 2 and 3
- D. 3 and 4

Correct Answer: A

QUESTION 22

Q22:

Which of the following are the default rules that apply to a new Administrative Role?

1. Deny access permissions on all nodes.
2. Modify access permissions on all nodes.
3. Access Control is applied to All Users.
4. Access Control is applied to Administrator and the group company.com\Domain Admins.

- A. 1 only
- B. 1 and 3
- C. 2 and 3
- D. 2 and 4

Correct Answer: B

QUESTION 23

Q23:

What are valid RES PowerFuse Identity options?

- A. All Users, Organizational Unit, Location
- B. Not in Group, Administrative Role, Location
- C. Application Manager, Not Administrative Role, Domain
- D. Application Manager, Not in Group, Language

Correct Answer: D

QUESTION 24

Q24:

Which of the following permissions are available for Administrative Roles?

1. Deny Access
2. Read Access
3. Full Control
4. Modify Access

- A. 1, 2, and 3
- B. 1, 2, and 4
- C. 1, 3, and 4
- D. 2, 3, and 4

Correct Answer: B

QUESTION 25

Q25:

When using an unattended installation, is it possible to add the RES PowerFuse Agent to a Workspace Container automatically?

- A. Yes, but the Workspace Container must be available
- B. Yes, but the Workspace Container must first be created with the corresponding public property
- C. No, this should be done manually in the RES PowerFuse Management Console
- D. No, this should be done manually or by using a Building Block

Correct Answer: B

QUESTION 26

Q26:

In the Workspace Designer, the Coverage percentage of the impact of context rules indicates the percentage of users that

- A. will receive the setting.
- B. currently have the setting and will receive it.
- C. currently do not have the setting and will receive it.
- D. currently have the setting and will not receive it.

Correct Answer: B

QUESTION 27

Q27:

In the Workspace Designer, the Missed percentage of the impact of context rules indicates the percentage of users that

- A. will not receive the setting.
- B. currently have the setting and will receive it.
- C. currently do not have the setting and will receive it.
- D. currently have the setting and will not receive it.

Correct Answer: D

QUESTION 28

Q28:

To view all registry settings applied to a specific user, an administrator needs to consult the

- A. Usage Tracking Viewer
- B. User Session properties
- C. Workspace Analysis Details
- D. User Registry settings filtered by the user

Correct Answer: C

QUESTION 29

Q29:

What log shows if the environment is sized correctly to handle session starts without exceeding the configured maximum number of simultaneous logons?

- A. CPU Optimization Log
- B. Access Balancing Log
- C. Sessions Log
- D. Errors log

Correct Answer: B

QUESTION 30

Q30:

When configuring access control on an External Command to include an Organizational Unit, a group, and an Administrative Role, the External command will be applied to a user if

- A. either the Organizational Unit or the group matches the user's session.
- B. the Organizational Unit, group, and the Administrative Role match the user's session.
- C. either the Organizational Unit, the group, or the Administrative Role matches the user's session.
- D. the Organizational Unit and the group match the user's session; the Administrative Role is only relevant if the user is a technical manager.

Correct Answer: C

QUESTION 31

Q31:

A global User Setting in the Zero Profile mode "Track specified settings on session start/end" preserves changes to a registry tree. A specific key in that tree should not be changed. How can the administrator configure the User Setting so that changes to that key are no longer preserved?

- A. Add the registry key to the Excluded Items tab of the User Setting.
- B. Add the registry key as an Exclusion to the Targeted Item.
- C. Create a Global User Settings Exclusion for the registry key.
- D. Create a Registry Settings Action to force the required registry key.

Correct Answer: B

QUESTION 32

Q32:

To create exceptions for Workspace Containers, an administrator can add the exception to the global setting

- 1. in the workspace model.
- 2. at the feature itself.
- 3. in the workspace model overview.

- A. 1 only
- B. 1 and 2
- C. 2 and 3
- D. 1, 2, and 3

Correct Answer: B

QUESTION 33

Q33:

Which of the following objects are supported by the workspace designer?

- 1. Printers
- 2. Directory Services
- 3. File Types
- 4. Data Sources

- A. 1 and 3
- B. 2 and 4
- C. 1, 2, and 4
- D. 2, 3, and 4

Correct Answer: C

QUESTION 34

Q34:

Memory Optimization optimizes the

- A. virtual memory usage of system processes.
- B. physical memory usage of system processes.
- C. virtual memory usage of application processes.
- D. physical memory usage of application processes.

Correct Answer: D

QUESTION 35

Q35:

A specific Action in RES PowerFuse contains the following items:

TEST1=1

TEST2=2

TEST3=3

Building Block "Z" contains the following settings:

TEST1=NEW1

TEST2=NEW2

TEST4=NEW4

What is the BEST way to import this Building Block with new settings while preserving the TEST3 setting?

- A. Import the Building Block and select "Merge".
- B. Add the TEST3 setting to the Building Block and import it.
- C. Create a Building Block of all settings, import Building Block "Z", and re-import the settings using the Building Block.
- D. Create a Building Block of the TEST3 setting, import Building Block "Z", and re-import the TEST3 setting using the Building Block.

Correct Answer: A

QUESTION 36

Q36:

To create a failover printer connection, an administrator needs to configure

- A. an additional printer at the same Workspace Container
- B. a backup printer for an existing connection
- C. a backup printer with Advanced Printing Preferences
- D. an additional printer with the same access control settings

Correct Answer: B

QUESTION 37

Q37:

To set the RES PowerFuse Workspace Manager as the default shell, an administrator needs to replace explorer.exe with

- A. pfwsmgr.exe
- B. pwrmenu.exe
- C. pwrtech.exe
- D. pfsync.exe

Correct Answer: A

QUESTION 38

Q38:

A nested Zone

- A. cannot be accessed when the parent zone can be accessed.
- B. can only be accessed if the parent Zone can be accessed.
- C. only applies when using the "&" sign in the rule configuration.
- D. does not apply when using the "&" sign in the rule configuration.

Correct Answer: B

QUESTION 39

Q39:

The Desktop Sampler collects information about Context and Composition. Which of the following Context information is sampled?

1. Network IP address
2. Operating System
3. Domain Group Membership

- A. 1 only
- B. 2 only
- C. 1 and 2
- D. 1, 2, and 3

Correct Answer: D

QUESTION 40

Q40:

Which of the following notations can be used when creating a Drive Mapping in RES PowerFuse?

1. Http:// to a WebDAV folder
2. Https:// to a WebDAV folder
3. Local path to a folder
4. UNC path to a shared folder

- A. 4 only

- B. 3 and 4
- C. 1, 2, and 4
- D. 1, 2, 3, and 4

Correct Answer: C

QUESTION 41

Q41:

Access Control can be applied to which of the following?

- 1. An application
- 2. An E-Mail template
- 3. A Data Source
- 4. A Workspace Container

- A. 1 only
- B. 1 and 4
- C. 1, 2, and 4
- D. 1, 2, 3, and 4

Correct Answer: D

QUESTION 42

Q42:

Which of the following actions with Building Blocks can be performed using pwrtech.exe command line parameters?

- A. Importing Building Blocks
- B. Importing and exporting Building Blocks
- C. Importing and exporting Building Blocks and also deleting objects using a Building Block
- D. Importing and exporting Building Blocks and also updating and deleting objects using a Building Block

Correct Answer: A

QUESTION 43

Q43:

What does PowerHelp enable a user to do?

- A. Request access to an application
- B. Configure application-specific settings
- C. Report software problems to the IT staff
- D. View access information about an application

Correct Answer: D

QUESTION 44

Q44:

When assigning users to an application, Application Managers may be limited by

- A. licensing and Time Restrictions
- B. licensing and Zones
- C. Organizational Unit and licensing
- D. Organizational Unit and Time Restrictions.

Correct Answer: C

QUESTION 45

Q45:

Exceptions to the Citrix XenApp Publishing defaults can be made on which of the following levels?

- 1. User
- 2. Shell
- 3. Application
- 4. Zone

- A. 3 only
- B. 1 and 3
- C. 2 and 3
- D. 3 and 4

Correct Answer: A

QUESTION 46

Q46:

Which locations are fully protected when an administrator runs Files and Folders security in learning mode on a Microsoft Windows 2003 Terminal Server?

- A. The RES PowerFuse program folder and the RES local cache folder
- B. The RES PowerFuse file share and the RES PowerFuse program folder
- C. The C:\Windows\system32 folder and the RES PowerFuse program folder
- D. The C:\Documents and Settings folder and the C:\Windows\system32 folder

Correct Answer: A

QUESTION 47

Q47:

Which Statements about Zero Profile mode are true?

- 1. "Track specified settings on application start/end" preserves specific items listed on the application's Targeted Items tab.
- 2. Preserved changes by "Track specified settings on application start/end" become available in any other session that is running simultaneously for that same user.
- 3. Preserved changes by "Track any setting changed by application immediately" become available in any other session that is running simultaneously for that same user.
- 4. "Track any setting changed by application immediately" preserves all changes in HKEY_CURRENT_USER made by the application or by application sub-processes that are listed as Authorized Files for the application or at global level.

- A. 1 and 2
- B. 3 and 4

- C. 1, 3, and 4
- D. 2, 3, and 4

Correct Answer: C

QUESTION 48

Q48:

Licenses are pooled per environment and are claimed by RES PowerFuse Agents according to which of the following rules?

1. Terminal Servers use licenses based on user sessions.
2. Desktops use licenses based on user sessions.
3. Laptops use licenses based on user sessions.
4. Laptops claim licenses when the laptop is online.

- A. 1 and 2
- B. 1 and 4
- C. 1, 2, and 3
- D. 1, 2, 3, and 4

Correct Answer: A

QUESTION 49

Q49:

Is it necessary to set the Applications security in Learning mode when an administrator adds a new application to the environment?

- A. No, it is possible to only enable Learning mode for the specific application.
- B. No, executables launched by the new application will be allowed automatically.
- C. Yes, to fine-tune an application the environment needs to be put in Learning mode.
- D. Yes, otherwise the administrator will not be able to run the newly installed application.

Correct Answer: A

QUESTION 50

Q50:

In which of the following formats can an Instant Report be saved?

1. HTML file
2. Microsoft Excel file
3. Microsoft Word file
4. Adobe PDF file

- A. 1 and 4
- B. 1, 2, and 4
- C. 1, 3, and 4
- D. 4 only

Correct Answer: D

QUESTION 51

Q51:

The RES PowerFuse Management Console

1. Communicates with the local cache.
2. Enables the administrator to manage all technology stacks.
3. Enables the administrator to manage only one technology stack.
4. Communicates directly with the RES PowerFuse Datastore.

- A. 1 and 2
- B. 1 and 3
- C. 2 and 4
- D. 3 and 4

Correct Answer: C

QUESTION 52

Q52:

What needs to be created in order to assign the Workspace Container "Germany" to a dedicated administrator?

- A. An Administrative Role with a Filter on the Workspace Container "Germany"
- B. An Administrative Role with a Scope on the Workspace Container "Germany"
- C. An Administrative Role with Workspace Control containing the Workspace Container "Germany"
- D. A Filter with Workspace Control containing the Workspace Container "Germany"

Correct Answer: B

QUESTION 53

Q53:

Where are the User Home Directory rules shown that apply to a specific user?

- A. In the Composition section of Workspace Analysis Details
- B. In the Composition > User Home Directory node
- C. In the Context > Directory Services node
- D. In the Diagnostics > User Sessions node

Correct Answer: A

QUESTION 54

Q54:

What feature is optional when configuring Removable Disks?

- A. Time restrictions
- B. Zones
- C. Access Control
- D. License Control

Correct Answer: B

QUESTION 55

Q55:

When a Scope is in effect for an administrator that limits the view to an OU, which of the following statements are true?

1. The list of sessions in User Sessions is limited to users in the OU specified in the Scope.
2. The list of users in Workspace Analysis is limited to the users in the OU specified in the Scope.
3. The list of Shell Exceptions will be limited to those exceptions which apply to the OU specified in the Scope.
4. The list of Environment Variables will not show any variables that are configured to apply to all users.

- A. 1 and 2
- B. 1, 2, and 4
- C. 2, 3, and 4
- D. 1, 2, 3 and 4

Correct Answer: A

QUESTION 56

Q56:

What supports dragging and dropping on the desktop?

- A. RES Subscriber Shell
- B. RES PowerFuse Shell
- C. Microsoft Windows Shell
- D. Microsoft Windows Shell and RES PowerFuse Shell

Correct Answer: C

QUESTION 57

Q57:

A 3D-rendering application needs full CPU power to ensure the shortest rendering times. CPU Optimization is configured for the total environment to limit CPU usages for applications. How can the administrator configure RES PowerFuse so that it grants this specific application the necessary CPU power, without losing control over other applications?

- A. Add a registry action at application level: ExcludeFromCPU = Yes.
- B. Exclude the application from CPU Optimization by adding the process name in the global CPU Optimization properties.
- C. All applications are effected by CPU Optimization. No exceptions can be made.
- D. Exclude the application from CPU Optimization on the application's Settings tab.

Correct Answer: D

QUESTION 58

Q58:

When a workstation running RES PowerFuse starts a session on a Terminal Server that is also running RES PowerFuse, a license is required

- A. for both the workstation and the terminal server session
- B. on the workstation, but notfor the terminal server session

- C. on the workstation, but a terminal server license is only needed for a published desktop
- D. on the workstation, but a terminal server license is only needed for a published application

Correct Answer: A

QUESTION 59

Q59:

What must be configured to have an E-mail sent automatically when a Security Event occurs?

- A. An Alerting E-mail for Security Management
- B. An Alerting Notification type associated with the correct event
- C. A Wisdom Task configured for the application that causes the Security Event
- D. An External Command configured for the Security Management Application Message

Correct Answer: B

QUESTION 60

Q60:

When an External Command is added, the "Wait for task to finish before continuing" is automatically selected if which of the following is selected?

- A. "Run Once"
- B. "Run Hidden"
- C. "Clear History"
- D. "Run task at logoff"

Correct Answer: D

QUESTION 61

Q61:

What RES Wisdom items can be selected from the Composition > Other > RES Wisdom Tasks node?

- A. Tasks and Queries
- B. Modules and Projects
- C. Resources
- D. Dispatchers

Correct Answer: C

QUESTION 62

Q63:

Which folders are automatically excluded from Read-Only Blanketing?

1. tmp and temp folders
2. User profile and All user profile
3. Recycle bin on all local drives

- A. 1 and 2
- B. 1 and 3

- C. 2 and 3
- D. 1, 2, and 3

Correct Answer: B

QUESTION 63

Q64:

When a Filter is applied in the RES PowerFuse Management Console, which of the following nodes will NOT be affected?

- 1. Shell
- 2. Zones
- 3. User Installed Applications
- 4. Administrative Roles

- A. 1 and 2
- B. 1 and 3
- C. 2 and 4
- D. 2, 3, and 4

Correct Answer: B

QUESTION 64

Q65:

When using Instant Data sources with a virtual application (e.g. Microsoft App-V or ThinApp), they will be created

- A. on the virtual application server
- B. on the user's home drive
- C. in the virtual environment
- D. in the RES PowerFuse Data store

Correct Answer: C

QUESTION 65

Q66:

What is the key difference between the RES Subscriber and the RES Workspace Extender?

- A. The RES Subscriber can be used as a shell.
- B. The RES Workspace Extender can be used as a shell.
- C. The RES Subscriber integrates local applications with the RES PowerFuse workspace.
- D. The RES Workspace Extender integrates local applications with the RES PowerFuse workspace.

Correct Answer: A

QUESTION 66

Q67:

What Administrative Role is created by default when an administrator creates a new RES PowerFuse Datastore?

- A. Support Manager
- B. Technical Manager
- C. Application Manager
- D. Real Enterprise Manager

Correct Answer: B

QUESTION 67

Q68:

What is the task of the Workspace Designer?

- A. Collect data from unmanaged environments
- B. Help to create managed user workspace objects
- C. Define which RES PowerFuse features should be enabled
- D. Provide an overview of a fully managed workspace

Correct Answer: B

QUESTION 68

Q69:

An administrator has chosen to analyze Applications using the Workspace Designer. When the sample files have been analyzed, a specific application displays 71% next to it. What does this percentage mean?

- A. That 71% of the sample files contain this application
- B. That 71% of the users that need this application will receive it
- C. That 71% of the users that have this application actually use it
- D. That 71% of the sample files are available for this application

Correct Answer: A

QUESTION 69

Q70:

What command line can an administrator use to start a RES PowerFuse Session in an Exclusive Workspace Container?

- A. %programfiles%\RES PowerFuse\pfwsmgr.exe /ws <name of workspace container>
- B. %programfiles%\RES PowerFuse\pwrmenu.exe /ws <name of workspace container >
- C. %programfiles%\RES PowerFuse\pfwsmgr.exe /ew <name of workspace container >
- D. %programfiles%\RES PowerFuse\pwrmenu.exe /ew <name of workspace container >

Correct Answer: C

QUESTION 70

Q71:

Which of the following statements are true about User Installed Applications?

1. User Installed Applications allows a specific end user to install software.
2. User Installed Applications can be used on every OS Version of workstations and servers running RES PowerFuse.

3. RES PowerFuse will grant the appropriate local privileges to the user account if needed.
4. User Installed Applications can be started via the other tab in Workspace Preferences.

- A. 1 and 2
- B. 1,2, and 4
- C. 1, 3, and 4
- D. 1 and 4

Correct Answer: D

QUESTION 71

Q72:

What is the best way to review which web sites were visited by users?

- A. Enable the WebTrace option in Usage Tracking
- B. Configure an "Websites visited" event in Alerting
- C. Filter in the Usage Tracking Viewer on the Internet Explorer application
- D. Enable Network Security in learning mode and reviewing Network Security logs

Correct Answer: A

QUESTION 72

Q73:

For applications A and B, User Settings are enabled in the Zero Profile mode "Track specified settings on application/session start/end". Application A has a Targeted Item

1; application B has a Targeted Item

2. The administrator decides to link the User Settings of application A to application B.

What will happen to Targeted Items 1 and 2?

- A. Targeted Item 1 remains with Application A; Targeted Item 2 remains with application B
- B. Targeted Item 1 is copied to application B
- C. Both applications get both Targeted Items
- D. Targeted Item 1 is deleted; Targeted Item 2 remains with application B

Correct Answer: B

QUESTION 73

Q74:

An administrator has configured User Settings for a specific application to track registry and files.

At application level, the User Setting is enabled. Start tracking changes is configured to track changes immediately; however, no changes are being preserved for users of the application.

Which of the following could be the cause of this problem?

1. Sampling mode is disabled.
2. User Settings is disabled at global level.
3. "Preserve" and "Apply" are both checked.
4. "Allow users to restore their own settings" is disabled.

- A. 1 and 2
- B. 2 only

- C. 3 only
- D. 4 only

Correct Answer: B

QUESTION 74

Q75:

The /EXPIREDAYS parameter specifies the

- A. number of days before a sample file should be deleted.
- B. number of days the Desktop Sampler needs to remain installed.
- C. maximum number of days an application needs to be accessed.
- D. number of days the Desktop Sampler should wait before sampling.

Correct Answer: B

QUESTION 75

Q76:

What is a Workspace Extension?

- A. A workstation-installed application that is integrated in a laptop environment
- B. A Terminal Server-installed application that is published through the RES Subscriber
- C. A workstation-installed application that is integrated in a Terminal Server environment
- D. A Terminal Server-installed application that is published through the RES Workspace Extender

Correct Answer: C

QUESTION 76

Q77:

In which of the following ways can an Instant Report be generated?

- 1. Using a pwrtech.exe command line parameter
- 2. Clicking the "Instant Report" button of a feature
- 3. From the context menu of a RES PowerFuse feature
- 4. From the "Action" menu in the RES PowerFuse Management Console

- A. 1, 2, and 3
- B. 1, 2, and 4
- C. 2, 3, and 4
- D. 1, 2, 3, and 4

Correct Answer: C

QUESTION 77

Q78:

An administrator will set the "Unmanaged shortcuts to same executable" option to "replace with managed shortcuts" when

- 1. Transferring from an unmanaged environment to a managed workspace.
- 2. Enabling the "managed applications" feature for the first time.
- 3. Both managed and unmanaged shortcuts to the same executable exist.

- A. 1 and 2
- B. 1 and 3
- C. 3 only
- D. 1, 2, and 3

Correct Answer: B

QUESTION 78

Q79:

Under Advanced Detection of Connection State, the administrator created the following configuration: Zone: Online Detect IP Address: 10.1.1.1 Timeout: 100 ms Retries: 3 Zone: Online Detect IP Address: 10.1.1.2 Timeout: 50 ms Retries: 3 When will RES PowerFuse consider the user Workspace to be online?

- A. When both ip addresses reply to a ping request
- B. When one of the ip addresses replies to a ping request
- C. When the ping reply count is higher than specified
- D. When the ping reply timeout is higher than specified

Correct Answer: C

QUESTION 79

Q80:

The RES PowerFuse Workspace composer

- A. is the managed uniform workspace the end users are presented with.
- B. are the actual machines RES PowerFuse is installed on.
- C. is the central database for your RES PowerFuse environment.
- D. is central point of administration for your RES PowerFuse environment.

Correct Answer: A

QUESTION 80

Q81:

When using E- mail Templates with Microsoft App-V, the MAPI profile will be created

- A. on the Microsoft App-V Server
- B. on the user's home drive
- C. in the virtual environment
- D. in the RES PowerFuse Datastore

Correct Answer: C

QUESTION 81

Q82:

Which of the following statements about Scope Control are true?

1. Only one Scope can be active for an administrator within the Management Console.
2. When a Scope is active for an administrator, objects in the Management Console may appear read-only.
3. A Scope cannot be limited to a certain Workspace Container.

4. A Scope cannot be limited to a certain Zone.

- A. 1 and 2
- B. 1 and 3
- C. 2 and 4
- D. 2, 3, and 4

Correct Answer: C

QUESTION 82

Q83:

The option "Allow users to restore their own settings" is selected for an application, but a user of the application complains that the "Restore" option has not become available. What is the most likely cause?

- A. The option "number of sessions to keep" has not been set.
- B. The user has no stored settings to restore.
- C. The application is running in Sampling mode.
- D. The user has selected the option "Do not show this message again."

Correct Answer: B

QUESTION 83

Q84:

An administrator can specify a screensaver picture for a specific group of users by

- A. adding exceptions to the default shell
- B. enabling "Do not configure PowerFuse screensaver"
- C. configuring Actions to set the %saverpic% variable
- D. using User Home Directory to copy a screensaver picture

Correct Answer: B

QUESTION 84

Q85:

With application license control enabled for all applications, where can an administrator find a detailed report on application license usage?

- A. Usage Tracking
- B. Instant Reports
- C. Modification Log
- D. Workspace Analysis

Correct Answer: A

QUESTION 85

Q86:

Which of the following rules can be used with Zones?

- 1. USB serial number

2. Active Directory Site
3. Hardware requirement
4. Terminal Server listener name

- A. 1 and 2
- B. 3 and 4
- C. 1, 3, and 4
- D. 1, 2, 3, and 4

Correct Answer: A

QUESTION 86

Q87:

When authorizing a blocked file from the Read-Only Blanketing Log, which permissions are available?

- A. Read/Write
- B. Execute/Modify
- C. Read/Modify
- D. Execute/Write

Correct Answer: B

QUESTION 87

Q88:

What can an administrator do with the Workspace Model?

1. Enable or disable a specific feature in RES PowerFuse
2. Change a feature's mode for a specific Workspace Container
3. Analyze the impact of a specific setting in RES PowerFuse

- A. 1 only
- B. 1 and 2
- C. 3 only
- D. 1 and 3

Correct Answer: B

QUESTION 88

Q89:

What is the best practice to deny all administrators access to the node "Diagnostics" EXCEPT for one user called ADMIN?

- A. Modify the Administrative Role Technical Managers for all the administrators and create a new full access role for ADMIN.
- B. Create a new role for all the administrators and verify that the Technical Managers role is assigned only to ADMIN.
- C. This is not possible because "Diagnostics" is a global node and cannot be assigned to a certain Administrative Role, Filter, or Scope.
- D. Create a Filter for all the administrators and verify that the Filter does NOT apply to ADMIN.

Correct Answer: B

QUESTION 89

Q90:

Automatically setting the Workspace Composer as default shell is possible if

1. An administrator performs an unattended installation of RES PowerFuse.
2. A Console Only installation of RES PowerFuse is performed.
3. A RES PowerFuse installation is performed on a Terminal Server.

- A. 1 only
- B. 2 only
- C. 1 and 2
- D. 1, 2, and 3

Correct Answer: D

QUESTION 90

Q91:

Which entry is recorded in the Audit Trail?

- A. Granted access
- B. Locked account
- C. Security warning
- D. Actions error

Correct Answer: A

QUESTION 91

Q92:

Given the following: In an environment running the Workspace Extender, Internet Explorer runs as a subscribed application

The file association 'http' is added to the subscribed application Internet Explorer and the setting 'Also register this command on the client using the Workspace Extender' is enabled.

What will happen when a user clicks an http link in a Terminal Server session?

- A. RES PowerFuse will start the Terminal Server's Internet Explorer.
- B. RES PowerFuse will start Internet Explorer as a workspace extension.
- C. RES PowerFuse will start the default application for the http file association.
- D. RES PowerFuse will start the client's default application for the http file association.

Correct Answer: B

QUESTION 92

Q93:

When a Drive Mapping has been configured with Access Control > Identity, Access Control > Locations & Devices, and Workspace Control, it will be applied to the user if

- A. Access Control > Identity, Access Control > Locations & Devices, and Workspace Control match the user's session.

- B. Access Control > Identity settings match the user's session; Access Control > Locations & Devices and Workspace Control are optional.
- C. Either Access Control > Identity or Access Control > Locations & Devices matches the user's session; Workspace Control is optional.
- D. Workspace Control matches the user's session and either Access Control > Identity or Access Control > Locations & Devices matches the user's session.

Correct Answer: C

QUESTION 93

Q94:

Which statements are true about User Registry Actions?

1. To replace the imported registry settings, import a new registry file and perform a "differential merge."
2. To remove a specific registry key from the user registry, use "toggle-remove."
3. To import only changed settings, import a new registry file and perform an "incremental merge."

- A. 1 only
- B. 2 only
- C. 1 and 2
- D. 2 and 3

Correct Answer: B

QUESTION 94

Q95:

Can an administrator configure both Access Control for an Administrative Role and Access Control for the Scope of that Administrative Role?

- A. No, this is not possible.
- B. Yes, this is possible but unnecessary, because Access Control for the Administrative Role will overrule Access Control for the Scope.
- C. Yes, this is possible; both sets of Access Control will be used to determine which users have access to the Administrative Role.
- D. Yes, this is possible; one applies to which users have access to the Administrative Role and the other applies to the settings these users will see.

Correct Answer: D

QUESTION 95

Q96:

Which of the following tasks are performed by the RES PowerFuse Agent Service?

1. Checking datastore connectivity
2. Unlocking and locking the User Registry
3. Handle license requests

- A. 1 only
- B. 1 and 2
- C. 2 and 3
- D. 1,2, and 3

Correct Answer: D

QUESTION 96

Q97:

Which of the following Statements is true regarding the Desktop Sampler?

1. It can be installed on a Terminal Server.
2. It can be installed on a workstation.
3. It can be installed using command line parameters.

- A. 1 only
- B. 1 and 3
- C. 2 and 3
- D. 1, 2, and 3

Correct Answer: D

QUESTION 97

Q98:

What RES PowerFuse feature must an administrator use to monitor if users save files to the local hard drive of their computers?

- A. Read-Only Blanketing in Enabled mode
- B. Read-Only Blanketing in Learning mode
- C. Files and Folders in Enabled mode
- D. Files and Folders in Learning mode

Correct Answer: D

QUESTION 98

Q99:

Several sub processes are presented below. Which of the following sub processes does the RES PowerFuse Agent Service contain?

1. resop
2. pwrcache
3. islogoff
4. memshield

- A. 1, 2, and 3
- B. 2, 3, and 4
- C. 1, 3, and 4
- D. 1, 2, 3, and 4

Correct Answer: A

QUESTION 99

Q100:

A Workspace Container consists of

- A. Organizational Units

- B. computers running the RES PowerFuse Agent
- C. Zones based on (partial) computer name
- D. applications which are made available for a specific user

Correct Answer: D

QUESTION 100

Q101:

Which RES PowerFuse component or tab provides users with information about application availability, distribution, and responsibility?

- A. Workspace Preferences > Diagnostics
- B. The TaskList button
- C. PowerHelp
- D. The RES PowerFuse Workspace Composer / About

Correct Answer: B

QUESTION 101

Q102:

Which of the following file types can be directly imported when creating a new application?

- 1. .LNK
 - 2. .OSD
 - 3. .PROFILE
 - 4. .EXE
-
- A. 1 and 4
 - B. 1, 2, and 4
 - C. 2, 3, and
 - D. 1, 2, 3, and 4

Correct Answer: C

QUESTION 102

Q102:

Which of the following file types can be directly imported when creating a new application?

- 1. .LNK
 - 2. .OSD
 - 3. .PROFILE
 - 4. .EXE
-
- A. 1 and 4
 - B. 1, 2, and 4
 - C. 2, 3, and 4
 - D. 1, 2, 3, and 4

Correct Answer: C
